

## OFFICE OF ENVIRONMENTAL SERVICES

### Minor Source Air General Permit

#### PROPOSED

#### **Surface Coating and Fabrication**

AGENCY INTEREST NO. 163497  
ACTIVITY NO. PER20120001

In accordance with the Louisiana Environmental Quality Act, as amended (La. R.S. 30:2001, *et seq.*: "The Act") and the rules and regulations effective or promulgated under the authority of the Act (LAC 33:III.501 and LAC 33:III.513), this Air General Permit is issued. This permit authorizes persons who meet the requirements set forth herein and have been approved by this Office to construct and operate surface coating and fabrication facilities in accordance with the emissions limitations, monitoring requirements, and other conditions of this permit.

This permit and the authorization to emit shall expire ten (10) years from the effective date of the permit.

This permit became effective on December 1, 2009.

This permit was previously modified.

This modification shall become effective on September 18, 2012

Issued on September 18, 2012

  
\_\_\_\_\_  
Sanford L. Phillips  
Assistant Secretary

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

**I. STATEMENT OF AUTHORITY – LAC 33:III.513.A**

The permitting authority may issue a general permit intended to cover numerous similar sources or activities. General permits shall be issued in accordance with LAC 33:III.519 and, prior to issuance, shall undergo public notice. Each general permit shall incorporate terms and conditions applicable to sources that would qualify for the general permit. Any general permit shall identify criteria by which sources may qualify for the general permit, and may provide for applications which deviate from the requirements of LAC 33:III.517.

The owner or operator of any source that would qualify for the general permit may apply for authorization to operate under the general permit. The application must include all information necessary to determine qualification for and to assure compliance with the general permit.

The permitting authority may approve an owner or operator's application for authorization to operate under the general permit without repeating the public participation procedures. Such an approval shall not be a final permit action for purposes of judicial review regarding the terms and conditions of the general permit.

Any source which is issued the general permit shall, notwithstanding a permit shield, be subject to enforcement action for operation without a permit if the source is later determined not to qualify for the general permit.

**II. ELIGIBILITY**

This minor source air general permit authorizes construction, operation, and modification of surface coating and fabrication facilities that meet the eligibility requirements outlined herein.

Facilities eligible for coverage under this general permit include facilities primarily engaged in surface coating and fabrication. These facilities are typically classified under Standard Industrial Classification (SIC) Codes beginning with 34xx, 35xx, 36xx, or 37xx.

Facilities which are subject to any 40 CFR 60 New Source Performance Standard or any 40 CFR 63 National Emission Standard for Hazardous Air Pollutants (NESHAP) not specified in this permit are not eligible for coverage. Facilities which strip paint using chloromethane (MeCl) are not eligible for coverage.

Facilities must maintain eligibility to operate under this permit. This permit does **not** authorize operations that are not compliant with the established eligibility conditions. Prior to initiating any modification to the facility that would prohibit it from being covered under this general permit, the permittee must request an "individual" site-specific air permit. If a modification rendering the facility ineligible for this general permit is effected without a site-specific permit in place, the modification will be deemed unauthorized from the date construction commenced and subject to enforcement action.

**MINOR SOURCE AIR GENERAL PERMIT  
AGENCY INTEREST NO. 163497  
ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

**Facilities Excluded from Coverage**

This general permit cannot be used to authorize construction and operation of:

1. “Part 70 Sources” as defined in LAC 33:III.502.
2. Except as described in LAC 33:III.501.B.3.a-b, facilities subject to regulatory requirements not addressed by this general permit, including those with equipment or processes not compliant with Section IV – Equipment-Specific Limitations and Required Controls.
3. Facilities subject to LAC 33:III.Chapter 59–Chemical Accident Prevention or 40 CFR Part 68–Chemical Accident Prevention Provisions.
4. Facilities that formerly operated as major sources if Best Available Control Technology (BACT) or Lowest Achievable Emission Rate (LAER) controls were installed and are being maintained on an existing emissions unit.

**III. FACILITY-WIDE EMISSIONS LIMITATIONS**

Baton Rouge Nonattainment Area

For facilities located in the parishes of Ascension, East Baton Rouge, Iberville, Livingston, and West Baton Rouge, potential emissions of criteria pollutants and toxic air pollutants (TAP) from the facility (or grouping of contiguous facilities) must be less than the following amounts, in tons per year:

<u>Pollutant</u>	<u>Emissions</u>
PM <sub>10</sub>	15
SO <sub>2</sub>	40
NO <sub>x</sub>	20
CO	90
Total VOC	20
Total TAPs	20
Any Individual TAP*	Table 1

Other Parishes

Except for facilities located in the parishes of Ascension, East Baton Rouge, Iberville, Livingston, and West Baton Rouge, potential emissions of criteria pollutants and toxic air pollutants (TAP) from the facility (or grouping of contiguous facilities) must be less than the following amounts, in tons per year:

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

<u>Pollutant</u>	<u>Emissions</u>
PM <sub>10</sub>	15
SO <sub>2</sub>	40
NO <sub>x</sub>	90
CO	90
Total VOC	90
Total TAPs	20
Any Individual TAP*	Table 1

The above limitations shall include emissions from *all* sources at the facility, including emissions from all insignificant activities set forth under LAC 33:III.501.B.5 and those from activities traditionally classified under General Condition XVII (e.g., sampling).

Re-designation of an Attainment Area to a Nonattainment Area

If, during the term of this permit, any parish outside of the Baton Rouge Nonattainment Area is designated as a “serious” or “severe” ozone nonattainment area, the owner or operator of a facility located in any such parish:

1. may retain this permit and comply with the limits applicable to facilities located in the Baton Rouge Nonattainment Area; or
2. if the facility cannot comply or the owner or operator chooses not to comply with limits applicable to facilities located in the Baton Rouge Nonattainment Area, the owner or operator shall apply for an “individual” site-specific air permit no later than 90 days after the effective date of the “serious” or “severe” nonattainment designation.

\* Any individual Toxic Air Pollutant (TAP) emitted shall not exceed the listed lb/hr and tons/yr limits of Table 1. Facilities which emit a TAP not listed in Table 1 shall not exceed the minimum emission rate (MER) for that TAP listed in Table 51.1 and 51.2 of LAC 33:III.Chapter 51. No individual TAP shall exceed 8 tons per year.

Table 1

LAC 33:III.Chapter 51 Toxic Air Pollutant	Limit lb/hr (8-hour average)	Limit tpy
Acetaldehyde		6.48
Acrolein	0.006	0.013
Antimony (and compounds)	0.013	0.02
Arsenic (and compounds)		0.013
Barium (and compounds)	0.013	0.02
Benzene		1.71
Beryllium(and compounds)		0.013
Biphenyl	0.02	0.05
n-Butyl alcohol	4.04	5.50

**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

Table 1 (continued)

LAC 33:III.Chapter 51 Toxic Air Pollutant	Limit lb/hr (8-hour average)	Limit tpy
Copper (and compounds)	0.026	0.013
Cresol	0.26	0.80
Cumene	6.55	8.00
Dibutyl phthalate	0.13	0.19
1,4-Dichlorobenzene	1.59	8.00
Ethyl benzene	11.51	8.00
Ethylene glycol	2.66	3.32
Formaldehyde		1.10
Glycol ethers	0.63	0.79
n-Hexane	4.68	7.50
Manganese (and compounds)		0.04
Methanol	6.97	8.00
Methyl ethyl ketone	15.65	8.00
Methyl isobutyl ketone	5.45	7.50
Naphthalene (and Methylnaphthalenes)	1.33	1.66
Nickel (and compounds)		0.04
Phenol	0.50	0.70
Polynuclear aromatic hydrocarbons		0.013
Selenium (and compounds)	0.005	0.013
Styrene	5.66	7.06
Toluene	9.95	8.00
Toluene-2,4-diisocyanate	0.0009	0.013
Toluene-2,6-diisocyanate	0.0009	0.013
Xylene (mixed isomers)	11.51	8.00
Zinc (and compounds)	0.13	0.16

**IV. EQUIPMENT-SPECIFIC LIMITATIONS AND REQUIRED CONTROLS**

**A. Internal Combustion Engines (ICEs)**

**Definitions**

*Stationary internal combustion engine* - any internal combustion engine (ICE), except combustion turbines, that converts heat energy into mechanical work and is not mobile. Stationary ICE differ from mobile ICE in that a stationary internal combustion engine is not a nonroad engine as defined at 40 CFR 1068.30 (excluding paragraph (2)(ii) of that definition), and is not used to propel a motor vehicle or a vehicle used solely for competition. Stationary ICE include reciprocating ICE, rotary ICE, and other ICE, except combustion turbines.

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

Limitations

ICEs must be fueled by diesel (or fuel oil no. 2). Stationary engines fueled by gasoline, natural gas, or liquefied petroleum gas (LPG) are not eligible for coverage under this permit.

**B. Storage Vessels**

Gasoline and storage vessels containing volatile organic compounds shall have a capacity less than 10,000 gallons. Storage vessels greater than 250 gallons storing any volatile organic compound having a maximum true vapor pressure of 1.5 psia or greater shall be equipped with a submerged fill pipe.

**C. Surface Coating**

Definitions

*Metal Fabrication and Finishing HAP* – means cadmium, chromium, lead, manganese, or nickel.

Limitations

Facilities located in the parishes of Ascension, Calcasieu, East Baton Rouge, Iberville, Livingston, Pointe Coupee, and West Baton Rouge which are engaged in the surface coating of Marine Vessels and Oilfield Tubulars and Ancillary Oilfield Equipment may not exceed 3.5 pounds VOC per gallon of coating as applied (minus water and exempt solvent) per LAC 33:III.2123.C.11.b.

**V. LABORATORY ANALYSES**

Laboratory procedures and analyses performed by commercial laboratories shall be conducted in accordance with the requirements set forth under the Laboratory Accreditation procedures established by LAC 33:I.Chapters 45-59. LDEQ will not accept data generated by commercial laboratories that are not accredited under this program, and retesting will be required by an accredited laboratory. Information on the Environmental Laboratory Accreditation Program and a list of labs that have applied for accreditation is available on the LDEQ's website at <http://www.deq.louisiana.gov/portal/tabid/2412/Default.aspx>.

**VI. MODIFYING A FACILITY**

**A. Modifications: Situations Where Pre-Construction Approval Is Required**

Except as specified in VII.B, before effecting any modification to a facility authorized to operate under this general surface coating and fabrication permit (generally commencement of construction) the permittee shall submit a completed Application for Approval of Emissions of Air Pollutants from Minor Sources to the Air Permits Division. Upon submittal of the completed application, the permittee may proceed with the proposed modification. The application forms and instructions are available on the LDEQ's website at <http://www.deq.louisiana.gov/portal/tabid/2758/Default.aspx>.

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

**B. "In Kind" Replacement of Equipment**

Notwithstanding Subsection VII.A, replacement of an existing emissions unit with an "in-kind" unit shall not require submittal of a completed "Application for Approval of Emissions of Air Pollutants from Minor Sources" to LDEQ, provided:

1. does not result in an increase in hourly or annual potential emissions of a regulated pollutant;
2. is not subject to federal or state regulations not applicable to the replaced emissions unit;
3. is an identical or functionally equivalent unit. A "functionally equivalent unit" means a component that serves the same purpose as the replaced component;
4. the replaced emissions unit is permanently removed from the facility or otherwise permanently disabled;
5. such modifications are disclosed in the next "Application for Approval of Emissions of Air Pollutants from Minor Sources" submitted pursuant to Subsection VII.A or VII.B; and
6. records of such modifications are retained on site or at another approved location for a minimum of two (2) years and made available for inspection by the Office of Environmental Compliance, Surveillance Division.

**VII. REQUESTING TERMINATION OF COVERAGE UNDER THIS PERMIT**

Permittee shall notify the Air Permits Division using the Application for Approval of Miscellaneous Permitting Actions if operations at the facility permanently cease during the permit term. The application form and instructions are available on the LDEQ's website at <http://www.deq.louisiana.gov/portal/tabcid/2758/Default.aspx>.

**VIII. NAME/OWNER/OPERATOR CHANGES**

The permittee shall notify the Office of Environmental Services in accordance with LAC 33:I.Chapter 19 using the Facility Name Change and Change of Ownership Form (NOC-1). The form and instructions are available on the LDEQ's website at <http://www.deq.louisiana.gov/portal/tabcid/65/Default.aspx>.

**IX. RENEWAL OF COVERAGE UNDER THE GENERAL PERMIT**

A permit application to renew coverage under the permit shall be submitted thirty (30) days prior to, but no earlier than 12 months before, the expiration date of the general permit. The application procedures shall be the same as those outlined in Section VII, except that a fee shall not be required unless the renewal application is also associated with a modification. If the owner or operator fails to submit a timely and complete renewal application, the owner's or operator's right to operate the source will terminate upon the expiration date of the general permit.

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

**X. GENERAL COVERAGE**

**Continuation of an Expired General Permit**

If this permit is not reissued or replaced prior to the expiration date, it shall be administratively continued and remain in force and effect for permittees that were covered prior to its expiration. Any permittee who was granted coverage prior to the expiration date will automatically remain covered by the continued permit until the earlier of:

1. reissuance or replacement of this permit, at which time the permittee must comply with the requirements for obtaining coverage under the new permit;
2. issuance of a site-specific permit to the facility; or
3. a formal permit decision by LDEQ not to reissue this general permit, at which time the permittee must seek coverage under a site-specific permit. In any such notice not to reissue the general permit, LDEQ will establish a deadline for the submittal of an application for a site-specific permit. LDEQ may grant additional time to submit the application upon request of the applicant. Coverage under this general permit shall continue until such time as a site-specific permit is approved. If a permittee fails to submit in a timely manner a site-specific air permit application as required by LDEQ, then the applicability of this permit to the individual permittee will be automatically terminated at the end of the day specified by LDEQ for application submittal.

**Requirement for a Site-Specific Permit**

Eligibility for this permit does not confer a vested right to coverage under the permit. LDEQ may require any person authorized by this permit to apply for and/or obtain a site-specific air permit. If LDEQ requires a permittee authorized to emit under this permit to apply for a site-specific air permit, LDEQ will notify the permittee in writing that a permit application is required. This notification will include a brief statement of the reasons for this decision, a statement setting a deadline for the permittee to file the application, and a statement that on the effective date of issuance or denial of the site-specific air permit, coverage under this permit will automatically terminate. LDEQ may grant additional time to submit the application upon request of the applicant. If a permittee fails to submit in a timely manner a site-specific air permit application as required by LDEQ, then the applicability of this permit to the individual permittee will be automatically terminated at the end of the day specified by LDEQ for application submittal.

LDEQ's notification that coverage under a site-specific permit is required does not imply that the facility does not meet the eligibility requirements of this permit.

**Severability**

The provisions of this permit are severable and if any provision of this permit, or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances and the remainder of this permit shall not be affected thereby.

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

**XI. REOPENER CLAUSE**

This permit may be modified, revoked and reissued, or terminated for cause. Upon modification or reissuance of this permit, the permittee shall comply with any new or modified requirements by any compliance dates established in the modified or reissued permit.

Please be advised that pursuant to provisions of the Environmental Quality Act and the Administrative Procedure Act, the Department may initiate review of a permit during its term. However, before it takes any action to modify, suspend or revoke a permit, the Department shall, in accordance with applicable statutes and regulations, notify the permittee by mail of the facts or operational conduct that warrant the intended action and provide the permittee with the opportunity to demonstrate compliance with all lawful requirements for the retention of the effective permit.

If there is evidence indicating that the air emissions authorized by this permit cause or have the reasonable potential to cause or contribute to a violation of a NAAQS, the facility may be required to obtain a site-specific permit or this permit may be modified to include different limitations and/or requirements.

**XII. PUBLIC NOTICE**

Request for public comment on this Minor Source Air General Permit for Surface Coating and Fabrication was published in *The Louisiana Register* on October 5, 2009; and in *The Advocate*, Baton Rouge; *The Times-Picayune*, New Orleans; *The News-Star*, Monroe; *The Lake Charles American Press*, Lake Charles; *The Times of Shreveport*, Shreveport; *The Advertiser*, Lafayette; the *Town Talk of Alexandria*, Alexandria; and in *The Courier of Houma*, Houma on October 5, 2009. All comments will be considered prior to a final permit decision.

As specified in LAC 33:III.513.A.3, the permitting authority may approve an owner or operator's application for authorization to operate under the general permit without repeating the public participation procedures.

**XIII. GENERAL CONDITIONS**

The following general conditions from LAC 33:III.537 apply, except as modified below.

<b>General Condition</b>	<b>Applicable</b>	<b>Comments</b>
I.	Yes.	Maximum facility-wide emissions authorized by this general permit are set forth in Section III of the permit. Site-specific emissions limitations are established by the permittee's application requesting coverage under this general permit. Exceedances of any limitations defined therein are addressed in General Condition III.
II.	Yes.	

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

<b>General Condition</b>	<b>Applicable</b>	<b>Comments</b>
III.	Yes.	This permit does not contain sections entitled "Emission Rates for Criteria Pollutants" and "Emission Rates for TAP/HAP and Other Pollutants." If emissions from an emissions unit are subsequently determined to be greater than those disclosed in a permit application, but facility-wide emissions remain within the limits set forth in Section III of this general permit, the owner or operator shall submit a revised application in accordance with Section VII of this general permit as soon as practicable, but no later than 30 calendar days after discovery of the discrepancy. In such situations, the owner or operator is not required to submit a report pursuant to General Condition XI <b>unless</b> an underlying federal or state standard has been violated. If a facility-wide emission limitation has been exceeded, a report must be submitted pursuant to General Condition XI.
IV.	Yes.	
V.	No.	
VI.	Yes.	
VII.	Yes.	
VIII.	No.	Testing and reporting deadlines are established by the Specific Requirements of this permit.
IX.	No.	See Section VII of this general permit and General Condition III.
X.	Yes.	
XI.	Yes.	See comment associated with General Condition III.
XII.	Yes.	
XIII.	Yes.	
XIV.	Yes.	
XV.	No.	
XVI.	Yes.	See Section IX of this general permit.
XVII.	Yes.	Only General Condition XVII activities disclosed in the permit application are considered authorized discharges.

**MINOR SOURCE AIR GENERAL PERMIT**  
**AGENCY INTEREST NO. 163497**  
**ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

<b>General Condition</b>	<b>Applicable</b>	<b>Comments</b>
XVIII.	See comment.	General Condition XVIII applies to the master general permit itself, but does extend to the action of granting coverage under this general permit. According to LAC 33:III.513.A.3, LDEQ may "approve an owner or operator's application for authorization to operate under the general permit without repeating the public participation procedures. Such an approval shall not be a final permit action for purposes of judicial review regarding the terms and conditions of the general permit."
XIX.	No.	
XX.	Yes.	

In addition, the following additional general conditions apply:

- XXI. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.
- XXII. No person shall falsify, tamper with, or knowingly render inaccurate, any monitoring device or method required to be maintained under this permit.
- XXIII. The permittee must take all reasonable steps to minimize or prevent any emissions in violation of this permit which have a reasonable likelihood of adversely affecting human health or the environment. The permittee shall also take all reasonable steps to minimize or correct any adverse impact on the environment resulting from noncompliance with the permit, including accelerated or additional monitoring as necessary to determine the nature and impact of the noncomplying emissions.
- XXIV. The permittee shall furnish to the Department, within a reasonable time to be specified by the Department, any information which the Department may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit or to determine compliance with this standard permit. The permittee shall also furnish to the Department, upon request, copies of records required to be kept by this permit.
- XXV. Nothing in this permit will be construed to preclude the institution of any legal action or relieve the permittee from any responsibilities, liabilities, or penalties established pursuant to any applicable federal or state law or regulation. No condition of this permit shall release the permittee from any responsibility or requirements under other environmental statutes or regulations.

**MINOR SOURCE AIR GENERAL PERMIT  
AGENCY INTEREST NO. 163497  
ACTIVITY NO. PER20120001**

**SURFACE COATING AND FABRICATION**

**XIV. MODIFICATIONS TO MASTER GENERAL PERMIT**

With this permit modification, the Department will update regulatory citations to coincide with revisions to LAC 33:III.2123 - Organic Solvents.

## SPECIFIC REQUIREMENTS

AI ID: 163497 - Minor Source Air General Permit for Surface Coating & Fabrication Facilities

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit

Air - Minor Source/Small Source Mod

### Group: PCS 0002 Abrasive Blasting

Group Members: ARE 0007 ARE 0008 ARE 0009 ARE 0010 ARE 0012

#### ARE 0007 - All Abrasive Blasting

1 [LAC 33:III.1311.C]

Opacity <= 20 percent; except emissions may have an average opacity in excess of 20 percent for not more than one six-minute period in any 60 consecutive minutes.

Which Months: All Year Statistical Basis: Six-minute average

Do not use material derived from hazardous, toxic, medical, and/or municipal waste as abrasive material.

Particulate matter fines < 10 % by weight of the abrasive that would pass through a No. 80 sieve as documented by the supplier. If supplier documentation is not provided for weight percent of fines in abrasive material, take samples according to ASTM standard ASTM D 75-87, reapproved 1992, before initial use.

Which Months: All Year Statistical Basis: None specified

Do not reuse abrasives for abrasive blasting unless they meet the requirements of LAC 33:III.1327.A.2.

Ensure that tarps have overlapping seams to prevent leakage of particulate matter.

Shade factor >= 80 percent. Limit the shade factor of the tarps.

Which Months: All Year Statistical Basis: None specified

Repair tarps prior to use if any single tear greater than 1 foot in length is present or if tears greater than 6 inches in length each are present.

Prevent blasting material or visible floating solids from reaching waters of the state or minimize to the maximum extent possible as specified in the facility and/or activity BMP or in accordance with the LPDES permit program.

Ensure that abrasive blasting activities do not create a nuisance.

Maintain stockpiles of new and/or spent abrasive material in a manner that will minimize fugitive airborne emissions.

Use and diligently maintain all emission control equipment in proper working order according to the manufacturer's specifications whenever any emissions are being generated that can be controlled by the facility, even if the ambient air quality standard in affected areas are not exceeded. Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Maintain the records specified in LAC 33:III.1333.A.1 through A.7 on the facility premises at all times. Present them to an authorized representative of DEQ upon request. Maintain records on a 36 month rolling basis.

#### ARE 0008 - Abrasive Blasting where object is Fully Enclosed or Surrounded

13 [LAC 33:III.1329.A.1]

Fully enclose the item, or surround the structure, to be blasted.

Exhaust the collection system through effective control equipment with a particulate matter outlet grain loading of 0.05 gr/dscf or less, as documented by the control equipment manufacturer or demonstrated by performance testing.

#### ARE 0009 - Abrasive Blasting Utilizing Best Management Practices

15 [LAC 33:III.1329.A.2]

Prepare and implement a best management practices (BMP) plan as described in LAC 33:III.1331.

Keep a complete copy of the BMP plan at the facility and make available to authorized representatives of DEQ upon request. Submit plans to DEQ if requested by an authorized representative of DEQ.

## **SPECIFIC REQUIREMENTS**

AI ID: 163497 - Minor Source Air General Permit for Surface Coating & Fabrication Facilities

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit

Air - Minor Source/Small Source Mod

### **Group: PCS 0002 Abrasive Blasting**

#### **ARE 0009 - Abrasive Blasting Utilizing Best Management Practices**

- 17 [LAC 33:III.1331.C] Designate a person who is accountable for the implementation and effectiveness of the BMP plan.  
Amend the BMP plan if required to by DEQ or whenever physical or operational modification of the facility renders the existing plan inadequate. Implement the amendment prior to or concurrent with the facility modification.
- 18 [LAC 33:III.1331.D] Review the BMP plan every three years to determine if the plan adequately reduces nuisances and adverse off-site impacts. If it is determined that the plan is not adequate, amend the plan within 90 days of the review to include more effective emission prevention and control technology.
- 19 [LAC 33:III.1331.E] Prepare the BMP plan in accordance with sound engineering practices and ensure that it is site-specific. Present the plan information in the sequence specified in LAC 33:III.1331.F.1 through F.10.
- 20 [LAC 33:III.1331.F] Include provisions for personnel training in the BMP plan as specified in LAC 33:III.1331.G.1 through G.4.
- 21 [LAC 33:III.1331.G] Ensure that records of the three year review are signed or initiated by the person conducting the review and an appropriate supervisor or the facility designee. Retain for a minimum of three years.
- 22 [LAC 33:III.1331.H.1] Maintain the following records on the facility premises: Self-inspection reports prepared in accordance with LAC 33:III.1331.F.8, and documentation of employee and contractor training, including dates, subjects, and hours of training and a list of attendees with signatures.

#### **ARE 0010 - Abrasive Blasting Vented Enclosures Subject to NESHAP XXXXX**

- 24 [40 CFR 63.11516(a)(2)(i)] Operate filtration control device according to manufacturer's instructions. Subpart XXXXXX. [40 CFR 63.11516(a)(2)(i)]  
25 [40 CFR 63.11516(a)(2)(ii)] Capture emissions and vent them to a filtration control device. Subpart XXXXXX. [40 CFR 63.11516(a)(2)(ii)]  
26 [40 CFR 63.11516(a)(2)(ii)(A)] Take measures necessary to minimize excess dust in the surrounding area to reduce MFHAP emissions, as practicable. Subpart XXXXXX. [40 CFR 63.11516(a)(2)(ii)(A)]  
27 [40 CFR 63.11516(a)(2)(ii)(B)] Enclose dusty abrasive material storage areas and holding bins, seal chutes and conveyors that transport abrasive materials. Subpart XXXXXX. [40 CFR 63.11516(a)(2)(ii)(B)]  
28 [40 CFR 63.11516(a)(2)(ii)(C)] Operate all equipment associated with dry abrasive blasting operations according to manufacturer's instructions. Subpart XXXXXX. [40 CFR 63.11516(a)(2)(ii)(C)]  
29 [40 CFR 63.11516(a)(3)(i)(A)] Take measures necessary to minimize excess dust in the surrounding area to reduce MFHAP emissions, as practicable. Subpart XXXXXX. [40 CFR 63.11516(a)(3)(i)(A)]  
30 [40 CFR 63.11516(a)(3)(i)(B)] Enclose abrasive material storage areas and holding bins, seal chutes and conveyors that transport abrasive material. Subpart XXXXXX. [40 CFR 63.11516(a)(3)(i)(B)]  
31 [40 CFR 63.11516(a)(3)(i)(C)] Operate all equipment associated with dry abrasive blasting operations according to manufacturer's instructions. Subpart XXXXXX. [40 CFR 63.11516(a)(3)(i)(C)]  
32 [40 CFR 63.11516(a)(3)(i)(D)] Do not re-use dry abrasive blasting media unless contaminants (i.e., any material other than the base metal, such as paint residue) have been removed by filtration or screening, and the abrasive material conforms to its original size. Subpart XXXXXX. [40 CFR 63.11516(a)(3)(i)(D)]  
33 [40 CFR 63.11516(a)(3)(i)(E)] Switch from high particulate matter (PM)-emitting blast media (e.g., sand) to low PM-emitting blast media (e.g., crushed glass, specular hematite, steel shot, aluminum oxide), where PM is a surrogate for MFHAP, whenever practicable. Subpart XXXXXX. [40 CFR 63.11516(a)(3)(i)(E)]

## SPECIFIC REQUIREMENTS

AI ID: 163497 - Minor Source Air General Permit for Surface Coating & Fabrication Facilities

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit

Air - Minor Source/Small Source Mod

### Group: PCS 0002 Abrasive Blasting

#### ARE 0010 - Abrasive Blasting Vented Enclosures Subject to NESHAP XXXXXX

- 34 [40 CFR 63.11516(a)(3)(ii)] Visible emissions monitored by 40 CFR 60, Appendix A, Method 22 daily on each day the process is in operation, during the operation of the process. Perform visual determinations at the fenceline or property border nearest to the outdoor dry abrasive blasting operation, for abrasive blasting performed outdoors. Perform visual determinations at the primary vent, stack, exit, or opening from the building containing the abrasive blasting operations, for abrasive blasting performed indoors.

If no visible fugitive emissions are detected in consecutive daily EPA Method 22 tests, performed in accordance with 40 CFR 63.11517(b)(1) for 10 days of work day operation of the process, visible emissions monitored by 40 CFR 60, Appendix A, Method 22 weekly. If visible fugitive emissions are detected during these tests, resume EPA Method 22 testing of that operation once per day during each day that the process is in operation, in accordance with 40 CFR 63.11517(b)(1).

If no visible fugitive emissions are detected in four consecutive weekly EPA Method 22 tests, performed in accordance with 40 CFR 63.11517(b)(2), visible emissions monitored by 40 CFR 60, Appendix A, Method 22 monthly. If visible fugitive emissions are detected during these tests, resume weekly EPA Method 22 tests in accordance with 40 CFR 63.11517(b)(2).

If no visible fugitive emissions are detected in three consecutive monthly EPA Method 22 tests, performed in accordance with 40 CFR 63.11517(b)(3), visible emissions monitored by 40 CFR 60, Appendix A, Method 22 quarterly. If visible fugitive emissions are detected during these tests, resume monthly EPA Method 22 tests in accordance with 40 CFR 63.11517(b)(3). Subpart XXXXXX. [40 CFR 63.11517(b)(1), 40 CFR 63.11516(a)(3)(ii), 40 CFR 63.11517(b)(2), 40 CFR 63.11517(b)(3)]

Which Month: All Year Statistical Basis: None specified

Perform corrective actions until any visible fugitive emissions are eliminated. After visible emissions are eliminated, perform a follow-up inspection for visible fugitive emissions in accordance with 40 CFR 63.11517(a). Subpart XXXXXX. [40 CFR 63.11516(a)(3)(iv)] Submit Certification and Compliance Report: Due annually, by the 31st of January. Include the information specified in 40 CFR 63.11519(b)(4) through (b)(9), as applicable. Keep the report in a readily-accessible location for inspector review. Submit exceedance report with the certification and compliance report if an exceedance has occurred during the year. Subpart XXXXXX. [40 CFR 63.11519(b)(1)]

Keep records in a form suitable and readily available for expeditious review, according to 40 CFR 63.10(b)(1). Keep each record for 5 years following the date of each occurrence, measurement, corrective action, report, or record. Keep each record on-site for at least 2 years after the date of each occurrence, measurement, corrective action, report, or record according to 40 CFR 63.10(b)(1). The remaining 3 years may be kept off-site. Subpart XXXXXX. [40 CFR 63.11519(c)(15)] Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Keep records of the information specified in 40 CFR 63.11519(c)(1) through (c)(14), as applicable. Subpart XXXXXX. [40 CFR 63.11519(c)] Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Keep records of the information specified in 40 CFR 63.11519(c)(1) through (c)(14), as applicable. Subpart XXXXXX. [40 CFR 63.11519(c)] All affected facilities shall comply with all applicable provisions in 40 CFR 63 Subpart A as delineated in Table 4 of 40 CFR 63 Subpart XXXXXX.

#### EQT 0006 - Diesel ICEs With Catalytic Controls >= 500 hp & Operating > 720 Hours in Any 6-Month Period and Not Subject to NSPS III

- 51 [LAC 33:III.501.C.6] Stack gas concentration: Oxygen monitored by portable analyzer annually (twelve months after the stack test or previous annual test, plus or minus 30 days). Maintain concentrations of O<sub>2</sub> in the same range as during the initial stack test. Calibrate portable analyzers before each test using a known reference gas sample.
- 52 [LAC 33:III.501.C.6] Which Months: All Year Statistical Basis: None specified
- Stack gas concentration: Nitrogen oxides monitored by portable analyzer annually (twelve months after the stack test or previous annual test, plus or minus 30 days). Maintain concentrations of NO<sub>x</sub> in the same range as during the initial stack test. Calibrate portable analyzers before each test using a known reference gas sample.
- 53 [LAC 33:III.501.C.6] Which Months: All Year Statistical Basis: None specified
- Submit report: Due within 60 days after performance/emissions test. Submit emissions test results to the Office of Environmental Assessment. The test results summary shall include any necessary conversion into the units of any applicable Standard. (lbs/MMBtu, gr/dscf, lbs SO<sub>2</sub> / ton 100% H<sub>2</sub>SO<sub>4</sub>, Etc.) Plant and in house laboratory data to support production values shall be included. (Example: how many tons of 100% equivalent H<sub>2</sub>SO<sub>4</sub> was being produced) Units tested at less than 95% of permitted maximum capacity shall provide documentation to support compliance at 100% of the permitted maximum capacity.

Stack gas concentration: Carbon monoxide monitored by portable analyzer annually (twelve months after the stack test or previous annual test, plus or minus 30 days). Maintain concentrations of CO in the same range as during the initial stack test. Calibrate portable analyzers before each test using a known reference gas sample.

54 [LAC 33:III.501.C.6] Which Months: All Year Statistical Basis: None specified

Equipment/operational data recordkeeping by electronic or hard copy annually. Recorded parameters are NO<sub>x</sub>, CO, and O<sub>2</sub> concentrations in the stack gas obtained during annual testing.

55 [LAC 33:III.501.C.6] Conduct a performance/emissions test: Due within 180 days after initial startup (or restart-up after modification), or within 60 days after achieving normal production rate or end of the shakedown period, whichever is earliest. The stack test's purpose is to demonstrate compliance with the emission limits of this permit and therefore must be conducted at greater than 80% of maximum permitted capacity. Repeat the test after each major engine overhaul. Test methods and procedures shall be in accordance with New Source Performance Standards, 40 CFR 60, Appendix A, Method 7E - Determination of Nitrogen Oxides Emissions from Stationary Sources and Method 10 - Determination of Carbon Monoxide Emissions from Stationary Sources. Use alternate stack test methods only with the prior approval of the Office of Environmental Assessment, Environmental Technology Division, Engineering Services. As required by LAC 33:III.913, provide necessary sampling ports in stacks or ducts and such other safe and proper sampling and testing facilities for proper determination of the emission limits.

56 [LAC 33:III.501.C.6] Submit notification: Due at least 30 days prior to any LDEQ required performance/emissions test to the Office of Environmental Assessment, to provide the opportunity to conduct a pretest meeting and observe the emission testing.

#### EQT 0007 - Diesel ICEs Without Catalytic Controls >= 500 hp & Operating > 720 Hours in Any 6-Month Period and Not Subject to NSPS III

- 58 [LAC 33:III.501.C.6] Option 1: Stack gas concentration: Oxygen monitored by portable analyzer semiannually (six months after the stack test or previous semiannual test, plus or minus 30 days). Maintain concentrations of O<sub>2</sub> in the same range as during the initial stack test. Calibrate portable analyzers before each test using a known reference gas sample.
- Which Months: All Year Statistical Basis: None specified

Permit Number: Surface Coating/Fabrication General Master Permit

Air - Minor Source/Small Source Mod

### Group: PCS 0004 Diesel Internal Combustion Engines

#### EQT 0008 - Diesel ICEs - Engines Subject to NSPS III

- 126 [40 CFR 60.4209(a)] All Models, All Emergency Use, All Displacements: Operating time monitored by hour/time monitor continuously during operation. Install a non-resettable hour meter prior to startup of the engine. Subpart III. [40 CFR 60.4209(a)]  
Which Months: All Year Statistical Basis: None specified  
Engines Equipped w/ Diesel Particulate Filter: Pressure monitored by pressure instrument continuously during operation. Install a backpressure monitor on the diesel particulate filter that notifies the owner or operator when the high backpressure limit of the engine is approached. Subpart III. [40 CFR 60.4209(b)]  
Which Months: All Year Statistical Basis: None specified  
Operate and maintain the stationary CI internal combustion engine and control device according to the manufacturer's written instructions or procedures developed by the owner or operator that are approved by the engine manufacturer. In addition, only change those settings that are permitted by the manufacturer. Also meet the requirements of 40 CFR 89, 94 and/or 1068, as applicable. Subpart III. [40 CFR 60.4211(a)]  
< 30 L/cylinder, All Uses, and Pre-2007 year Models, as well as Fire Pump Engines < 100 HP built before 2011 or >= 100 HP < 175 HP built before 2010 or >= 175 HP < 750 built before 2009 or > 750 HP built before 2008: Demonstrate compliance according to one of the methods specified in 40 CFR 60.4211(b)(1) through (b)(5). Subpart III. [40 CFR 60.4211(b)]  
< 30 L/cylinder, All Uses, and >= 2007 year Models except for Fire Pump Engines < 100 HP built before 2011 or >= 100 HP < 175 HP built before 2010 or >= 175 HP < 750 built before 2009 or > 750 HP built before 2008: Ensure engine is certified to the emission standards in 40 CFR 60.4204(b), or 40 CFR 60.4025(b) or (c), as applicable, for the same model year and maximum (or in the case of fire pumps, NFPA nameplate) engine power. Install and configure according to the manufacturer's specifications. Subpart III. [40 CFR 60.4211(c)]  
All Models, All Uses, and >= 30 L/cylinder: Conduct an initial performance test to demonstrate initial compliance with the emission standards as specified in 40 CFR 60.4213. Subpart III. [40 CFR 60.4211(d)(1)]  
All Models, All Uses, and >= 30 L/cylinder: Equipment/operational data monitored by technically sound method continuously. Subpart III.  
[40 CFR 60.4211(d)(2)]  
Which Months: All Year Statistical Basis: None specified  
All Models, All Uses, and >= 30 L/cylinder: Submit petition to LDEQ for approval of operating parameters to be monitored continuously.  
Include the information described in 40 CFR 60.4211(d)(2)(i) through (d)(2)(v). Subpart III. [40 CFR 60.4211(d)(2)]  
All Models, Non-Emergency Use, and >= 30 L/cylinder: Conduct annual performance tests to demonstrate continuous compliance with the emission standards as specified in 40 CFR 60.4213. Subpart III. [40 CFR 60.4211(d)(3)]  
All Emergency Use and All Displacements: Operate for the purpose of maintenance checks and readiness testing, provided that the tests are recommended by Federal, State or local government, the manufacturer, the vendor, or the insurance company associated with the engine. Limit maintenance checks and readiness testing to 100 hours per year. There is no time limit during use in emergency situations. A petition for approval of additional hours to be used for maintenance checks and readiness testing may be submitted to LDEQ, but a petition is not required if records are maintained indicating that Federal, State, or local standards require maintenance and testing of emergency engines beyond 100 hours per year. Any operation other than emergency operations, and maintenance and testing as allowed per 40 CFR 60.4211(e) for emergency engines subject to standards under 40 CFR 60.4205, is prohibited. Subpart III. [40 CFR 60.4211(e)]  
Engines subject to 40 CFR 62.4211(b): Conduct performance tests according to 40 CFR 60.4212(a) through (d). Subpart III.

Air - Minor Source/Small Source Mod

### Group: PCS 0001 Surface Coating

#### ARE 0002 - Surface Coating Subject to LAC 33:III.2123

217 [LAC 33:III.2123.C.8.b]

Surface coating of miscellaneous metal parts and products. Other: VOC, Total  $\leq$  3.0 lb/gal (0.36 kg/L) of coating as applied (minus water and exempt solvent). These limits do not apply to operations covered in LAC 33:III.2123.C.1-8 or 11 or exterior coating of fully assembled aircraft, auto refinishing, and auto customizing topcoating (processing less than 35 vehicles per day).

218 [LAC 33:III.2123.C.8]

Which Months: All Year Statistical Basis: Daily average Surface coating of miscellaneous metal parts and products. Frequent color changes and/or large numbers of colors applied, or first coat on untreated ferrous substrate: VOC, Total  $\leq$  3.0 lb/gal (0.36 kg/L) of coating as applied (minus water and exempt solvent).

219 [LAC 33:III.2123.C.8]

Which Months: All Year Statistical Basis: Daily average Surface coating of miscellaneous metal parts and products. Air or Force Air Dried Items (not oven dried) Coating: VOC, Total  $\leq$  3.5 lb/gal (0.42 kg/L) of coating as applied (minus water and exempt solvent).

220 [LAC 33:III.2123.C.8]

Which Months: All Year Statistical Basis: Daily average Surface coating of miscellaneous metal parts and products. Outdoor or Harsh Exposure or Extreme Performance Characteristics Coating: VOC, Total  $\leq$  3.5 lb/gal (0.42 kg/L) of coating as applied (minus water and exempt solvent).

221 [LAC 33:III.2123.C.8]

Which Months: All Year Statistical Basis: Daily average Surface coating of miscellaneous metal parts and products. Clear Coat Coating: VOC, Total  $\leq$  4.3 lb/gal (0.52 kg/L) of coating as applied (minus water and exempt solvent).

222 [LAC 33:III.2123.C.9]

Which Months: All Year Statistical Basis: Daily average VOC, Total: Factory surface coating of flat wood paneling with VOC emissions greater than 15 lbs/day before controls: Applies to all Inks, Coatings, and Adhesives: VOC, Total  $\leq$  2.1 lb/gal (0.25 kg/L) of coating as applied (minus water and exempt solvent).

223 [LAC 33:III.2123.D.1]

Which Months: All Year Statistical Basis: None specified Determine the effectiveness of the capture system (i.e. capture efficiency) using the procedure specified in LAC 33:III.2123.E.6. Submit design data for each capture system and emission control device that is proposed for use to the Office of Environmental Services for approval.

224 [LAC 33:III.2123.D.1]

Determine compliance by the procedure specified in "Control of Volatile Organic Emissions for Existing Stationary Sources. Vol. 2-Surface Coating of Cans, Coils, Paper, Fabric, Autos and Lt. Duty Trucks", (EPA 450/2-77-008), the procedures specified in "Measurement of Volatile Organic Compounds" (EPA-450/2-78-041), a method approved by DEQ or certification from the paint manufacturer concerning the solvent makeup of the paint. Treat exempt solvents the same as water in calculating the VOC content per gallon of coating.

225 [LAC 33:III.2123.D.1]

Determine compliance with LAC 33:III.2123.C.6 in accordance with EPA's "Protocol for Determining the Daily Volatile Organic Compound Emission Rate of Automobile and Light Duty Truck Topcoat Operations", EPA 450/3-88-018, December, 1988. Test the improved transfer efficiency equipment following procedures approved in advance by DEQ and consistent with those transfer efficiency testing procedures specified in LAC 33:III.2123.E.5. Calculate the applicable emission limit using the transfer efficiency baseline established by DEQ and determine compliance following a calculation procedure also approved by DEQ.

226 [LAC 33:III.2123.D.3]

Determine compliance with LAC 33:III.2123.A, C, and D by applying the test methods specified in LAC 33:III.2123.E.1 through E.6, as appropriate.

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit

Air - Minor Source/Small Source Mod

### Group: PCS 0001 Surface Coating

#### ARE 004 - Miscellaneous Surface Coating Subject to NESHAP HHHHHH

242 [40 CFR 63.11178]

Maintain copies of the records specified in 40 CFR 63.11177 for a period of at least five years after the date of each record. Keep copies of records on site and in a printed or electronic form that is readily accessible for inspection for at least the first two years after their date. After the two year period records may be kept off-site. Subpart HHHHHH.  
All affected facilities shall comply with all applicable provisions in 40 CFR 63 Subpart A as delineated in Table 1 of 40 CFR 63 Subpart HHHHHH.

#### ARE 005 - Motor Vehicle and Mobile Equipment Surface Coating Subject to NESHAP HHHHHH

244 [40 CFR 63.11173(e)(1)]

Ensure that all painters are certified that they have completed training in the proper spray application of surface coatings and the proper setup and maintenance of spray equipment, as specified in 40 CFR 63.11173(i). Subpart HHHHHH. [40 CFR 63.11173(e)(1)]  
Ensure that all spray booths, preparation stations, and mobile enclosures are fitted with a type of filter technology that is demonstrated to achieve at least 98% capture of paint overspray. Subpart HHHHHH. [40 CFR 63.11173(e)(2)(i)]  
Ensure that spray booths and preparation stations used to refinish complete motor vehicles or mobile equipment are fully enclosed with a full roof and four complete walls or complete side curtains, and are ventilated at negative pressure so that air is drawn into any openings in the booth walls or preparation station curtains. If a spray booth is fully enclosed and has seals on all doors and other openings and has an automatic pressure balancing system, it may be operated at up to, but not more than, 0.05 inches water gauge positive pressure. Subpart HHHHHH. [40 CFR 63.11173(e)(2)(ii)]  
Ensure that mobile ventilated enclosures that are used to perform spot repairs enclose and, if necessary, seal against the surface around the area being coated such that paint overspray is retained within the enclosure and directed to a filter to capture paint overspray. Subpart HHHHHH. [40 CFR 63.11173(e)(2)(iv)]

245 [40 CFR 63.11173(e)(2)(i)]

Apply all spray-applied coatings with a high volume, low pressure (HVLP) spray gun, electrostatic application, airless spray gun, air-assisted airless spray gun, or an equivalent technology that is demonstrated by the spray gun manufacturer to achieve transfer efficiency comparable to one of the spray gun technologies listed above for a comparable operation, and for which written approval has been obtained from DEQ. Subpart HHHHHH. [40 CFR 63.11173(e)(3)]  
Conduct all paint spray gun cleaning so that an atomized mist or spray of gun cleaning solvent and paint residue is not created outside of a container that collects used gun cleaning solvent. Subpart HHHHHH. [40 CFR 63.11173(e)(4)]

246 [40 CFR 63.11173(e)(2)(ii)]

Submit Notification of Changes Report: Due annually prior to March 1, if information previously submitted in either the initial notification required by 40 CFR 63.11175(a), Notification of Compliance, or a previous annual notification of changes report submitted under 40 CFR 63.11176(a), has changed. Include the information specified in 40 CFR 63.11176(a)(1) and (a)(2). Subpart HHHHHH. [40 CFR 63.11176(a)] Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Keep records of the information specified in 40 CFR 63.11177(a) through (d) and (g) and (h). Subpart HHHHHH.

247 [40 CFR 63.11173(e)(2)(iv)]

Maintain copies of the records specified in 40 CFR 63.11177 for a period of at least five years after the date of each record. Keep copies of records on site and in a printed or electronic form that is readily accessible for inspection for at least the first two years after their date. After the two year period records may be kept off-site. Subpart HHHHHH.

## SPECIFIC REQUIREMENTS

AI ID: 163497 - Minor Source Air General Permit for Surface Coating & Fabrication Facilities

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit

Air - Minor Source/Small Source Mod

### Group: PCS 0001 Surface Coating

#### ARE 0005 - Motor Vehicle and Mobile Equipment Surface Coating Subject to NESHAP HHHHHH

- 253 [40 CFR 63.] All affected facilities shall comply with all applicable provisions in 40 CFR 63 Subpart A as delineated in Table 1 of 40 CFR 63 Subpart HHHHHH.

#### ARE 0006 - Surface Coating Subject to NESHAP XXXXXX

- 254 [40 CFR 63.11516(d)(1)(i)] Ensure that spray booths or spray rooms have a full roof, at least two complete walls, and one or two complete side curtains or other barrier material so that all four sides are covered. Ventilate the spray booths or spray rooms so that air is drawn into the booth and leaves only through the filter. The roof may contain narrow slots for connecting fabricated products to overhead cranes, and/or for cords or cables. Subpart XXXXXX. [40 CFR 63.11516(d)(1)(i)]  
Fit all spray booths or spray rooms with a type of filter technology that is demonstrated to achieve at least 98 percent capture of MFHAP.  
Subpart XXXXXX. [40 CFR 63.11516(d)(1)(ii)]  
Perform regular inspection and replacement of the filters in all spray booths or spray rooms according to manufacturer's instructions. Subpart XXXXXX. [40 CFR 63.11516(d)(1)(iii)]  
Equip spray booths or spray rooms with a water curtain that is operated and maintained according to the manufacturer's specifications and that achieves at least 98 percent control of MFHAP. Subpart XXXXXX. [40 CFR 63.11516(d)(1)(iv)]  
Apply all paints applied via spray-applied painting with a high-volume, low-pressure (HVLP) spray gun, electrostatic application, airless spray gun, air-assisted airless spray gun, or an equivalent technology that is demonstrated to achieve transfer efficiency comparable to one of these spray gun technologies for a comparable operation, and for which written approval has been obtained from DEQ. Subpart XXXXXX. [40 CFR 63.11516(d)(2)]  
Perform all cleaning of paint spray guns with either non-HAP gun cleaning solvents, or in such a manner that an atomized mist of spray of gun cleaning solvent and paint residue is not created outside of a container that collects the used gun cleaning solvent. Subpart XXXXXX. [40 CFR 63.11516(d)(4)]  
Ensure that all workers performing painting are certified that they have completed training in the proper spray application of paints and the proper setup and maintenance of spray equipment. The spray application of paint is prohibited by persons who are not certified as having completed the training described in 40 CFR 63.11516(d)(6). Subpart XXXXXX. [40 CFR 63.11516(d)(5)]  
Ensure and certify that all new and existing personnel, including contract personnel, who spray apply paints are trained in the proper application of paints as required by 40 CFR 63.11516(d)(5). Ensure that the training program includes, at a minimum, the items listed in 40 CFR 63.11516(d)(6)(i) through (d)(6)(iii). Subpart XXXXXX. [40 CFR 63.11516(d)(6)]  
Ensure that all personnel receive refresher training that meets the requirements of 40 CFR 63.11516 and are re-certified every 5 years. Subpart XXXXXX. [40 CFR 63.11516(d)(9)]  
Submit Certification and Compliance Report: Due annually, by the 31st of January. Include the information specified in 40 CFR 63.11519(b)(4) through (b)(9), as applicable. Keep the report in a readily-accessible location for inspector review. Submit exceedance report with the certification and compliance report if an exceedance has occurred during the year. Subpart XXXXXX. [40 CFR 63.11519(b)(1)]

#### EQT 0002 - Welding Subject to NESHAP XXXXXX

- 273 [40 CFR 63.11516(f)(3)] Visible emissions monitored by 40 CFR 60, Appendix A, Method 22 monthly, if no visible fugitive emissions are detected in four consecutive weekly EPA Method 22 tests performed in accordance with 40 CFR 63.11517(b)(2). Resume weekly EPA Method 22 tests in accordance with 40 CFR 63.11517(b)(2) if visible fugitive emissions are detected during these tests. Subpart XXXXXX. [40 CFR 63.11516(f)(3), 40 CFR 63.11517(b)(3)]
- Which Month: All Year Statistical Basis: None specified
- Visible emissions monitored by 40 CFR 60, Appendix A, Method 22 weekly, if no visible fugitive emissions are detected in consecutive daily EPA Method 22 test, performed in accordance with 40 CFR 63.11517(b)(1) for 10 days of work day operation of the process. Resume EPA Method 22 testing of that operation once per day during each day that the process is in operation, in accordance with 40 CFR 63.11517(b)(1), if visible fugitive emissions are detected during these tests. Subpart XXXXXX. [40 CFR 63.11516(f)(3), 40 CFR 63.11517(b)(2)]
- Which Month: All Year Statistical Basis: None specified
- Visible emissions monitored by 40 CFR 60, Appendix A, Method 22 quarterly, if no visible fugitive emissions are detected in three consecutive monthly EPA Method 22 tests performed in accordance with 40 CFR 63.11517(b)(3). Resume monthly EPA Method 22 tests in accordance with 40 CFR 63.11516(f)(3) if visible fugitive emissions are detected during these tests. Subpart XXXXXX. [40 CFR 63.11516(f)(3), 40 CFR 63.11517(b)(4)]
- Which Month: All Year Statistical Basis: None specified
- Perform corrective actions that include, but are not limited to, inspection of welding fume sources, and evaluation of the proper operation and effectiveness of the management practices or fume control measures implemented in accordance with 40 CFR 63.11516(f)(2), if visible fugitive emissions are detected during any visual determination required in 40 CFR 63.11516(f)(3). Perform a follow-up inspection for visible fugitive emissions in accordance with 40 CFR 63.11517(a) at the primary vent, stack, exit, or opening from the building containing the welding operations after completing corrective actions. Subpart XXXXXX. [40 CFR 63.11516(f)(4)(i)]
- Opacity monitored by 40 CFR 60, Appendix A, Method 9 within 24 hours of the end of the visual determination of fugitive emissions in which visible fugitive emissions were detected, if visible fugitive emissions are detected more than once during any consecutive 12 month period. Monitor opacity at the primary vent, stack, exit, or opening from the building containing the welding operations. Subpart XXXXXX. [40 CFR 63.11516(f)(5)(i), 40 CFR 63.11517(c)]
- Which Month: All Year Statistical Basis: None specified
- Opacity monitored by 40 CFR 60, Appendix A, Method 9 daily during each day that the process is in operation. Subpart XXXXXX. [40 CFR 63.11516(f)(5)(ii), 40 CFR 63.11517(d)(1)]
- Which Month: All Year Statistical Basis: Six-minute average
- Opacity monitored by 40 CFR 60, Appendix A, Method 9 weekly (once per five days of consecutive work day operation), if the average of the six minute opacities recorded during any of the daily consecutive EPA Method 9 tests performed in accordance with 40 CFR 63.11517(d)(1) does not exceed 20 percent for 10 days of operation of the process. Resume testing every day of operation of the process according to the requirements of 40 CFR 63.11517(d)(1) if opacity greater than 20 percent is detected during any of these tests. Subpart XXXXXX. [40 CFR 63.11516(f)(5)(ii), 40 CFR 63.11517(d)(2)]
- Which Month: All Year Statistical Basis: Six-minute average

#### EQT 0002 - Welding Subject to NESHAP XXXXX

- 280 [40 CFR 63.11516(f)(5)(ii)] Opacity monitored by 40 CFR 60, Appendix A, Method 9 monthly (once per every 21 days of operation of the process), if the average of the six minute opacities recorded during any of the consecutive weekly EPA Method 9 tests performed in accordance with 40 CFR 63.11517(d)(2) does not exceed 20 percent for four consecutive weekly tests. Resume testing every five days of operation of the process according to the requirements of 40 CFR 63.11517(d)(2) if visible emissions opacity greater than 20 percent is detected during any monthly test. Subpart XXXXXX. [40 CFR 63.11516(f)(5)(ii), 40 CFR 63.11517(d)(3)]
- Which Months: All Year Statistical Basis: Six-minute average
- 281 [40 CFR 63.11516(f)(5)(ii)] Opacity monitored by 40 CFR 60, Appendix A, Method 9 quarterly (once per every 120 days of operation of the process), if the average of the six minute opacities recorded during any of the consecutive monthly EPA Method 9 tests performed in accordance with 40 CFR 63.11517(d)(3) does not exceed 20 percent for three consecutive monthly tests. Resume testing every 21 days (month) of operation of the process according to the requirements of 40 CFR 63.11517(d)(3) if visible emissions opacity greater than 20 percent is detected during any quarterly test. Subpart XXXXXX. [40 CFR 63.11516(f)(5)(ii), 40 CFR 63.11517(d)(4)]
- Which Months: All Year Statistical Basis: Six-minute average
- 282 [40 CFR 63.11516(f)(6)] Perform corrective actions, including inspection of all welding fume sources, and evaluation of the proper operation and effectiveness of the management practices or fume control measures implemented in accordance with 40 CFR 63.11516(f)(2), for each visual determination of emissions opacity performed in accordance with 40 CFR 63.11516(f)(5) for which the average of the six-minute average opacities recorded is 20 percent or less but greater than zero. Subpart XXXXXX. [40 CFR 63.11516(f)(6)]
- 283 [40 CFR 63.11516(f)(7)] Prepare and implement a Site-Specific Welding Emissions Management Plan, as specified in 40 CFR 63.11516(f)(8), within 30 days of a visual determination of emissions opacity performed in accordance with 40 CFR 63.11516(f)(5) for which the average of the six- minute average opacities recorded exceeds 20 percent. Include the information specified in 40 CFR 63.11516(f)(8)(i)(A) through (f)(8)(i)(F). If a Site-Specific Welding Emissions Management Plan has already been prepared, prepare and implement a revised Site-Specific Welding Emissions Management Plan. During the preparation (or revision) of the Site-Specific Welding Emissions Management Plan, continue to perform visual determinations of emissions opacity, beginning on a daily schedule as specified in 40 CFR 63.11517(d), at the primary vent, stack, exit, or opening from the building containing the welding operations. Subpart XXXXXX. [40 CFR 63.11516(f)(7)]
- 284 [40 CFR 63.11516(f)(8)(ii)] Update the Site-Specific Welding Emissions Management Plan annually to contain current information, as required by 40 CFR 63.11516(f)(8)(i)(A) through (f)(8)(i)(C), and submit with the annual certification and compliance report. Subpart XXXXXX. [40 CFR 63.11516(f)(8)(ii)]
- 285 [40 CFR 63.11519(b)(1)] Submit Certification and Compliance Report: Due annually, by the 31st of January. Include the information specified in 40 CFR 63.11519(b)(4) through (b)(9), as applicable. Keep the report in a readily-accessible location for inspector review. Submit exceedance report with the certification and compliance report if an exceedance has occurred during the year. Subpart XXXXXX. [40 CFR 63.11519(b)(1)]
- 286 [40 CFR 63.11519(c)(15)] Keep records in a form suitable and readily available for expeditious review, according to 40 CFR 63.10(b)(1). Keep each record for 5 years following the date of each occurrence, measurement, corrective action, report, or record. Keep each record on-site for at least 2 years after the date of each occurrence, measurement, corrective action, report, or record according to 40 CFR 63.10(b)(1). The remaining 3 years may be kept off-site. Subpart XXXXXX. [40 CFR 63.11519(c)(15)]
- 287 [40 CFR 63.11519(c)] Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Keep records of the information specified in 40 CFR 63.11519(c)(1) through (c)(14), as applicable. Subpart XXXXXX. [40 CFR 63.11519(c)]

## SPECIFIC REQUIREMENTS

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit  
Air - Minor Source/Small Source Mod

### Group: PCS 0003 Welding, Cutting, Grinding, Machining, and Polishing

#### EQT 0002 - Welding Subject to NESHAP XXXXX

288 [40 CFR 63.11519(c)]

Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Keep records of the information specified in 40 CFR 63.11519(c)(1) through (c)(14), as applicable. Subpart XXXXXX. [40 CFR 63.11519(c)]  
All affected facilities shall comply with all applicable provisions in 40 CFR 63 Subpart A as delineated in Table 4 of 40 CFR 63 Subpart XXXXXX.

#### EQT 0003 - Dry Grinding, Polishing, and Machining Subject to NESHAP XXXXX

290 [40 CFR 63.11516(b)(1)] Take measures necessary to minimize excess dust in the surrounding area to reduce MFHAP emissions, as practicable. Subpart XXXXXX. [40 CFR 63.11516(b)(1)]

291 [40 CFR 63.11516(b)(2)] Operate all equipment associated with machining according to manufacturer's instructions. Subpart XXXXXX. [40 CFR 63.11516(b)(2)]

292 [40 CFR 63.11516(c)(1)] Capture emissions and vent them to a filtration control device. Subpart XXXXXX. [40 CFR 63.11516(c)(1)]

293 [40 CFR 63.11516(c)(2)(i)] Take measures necessary to minimize excess dust in the surrounding area to reduce MFHAP emissions, as practicable. Subpart XXXXXX. [40 CFR 63.11516(c)(2)(i)]

294 [40 CFR 63.11516(c)(2)(ii)] Operate all equipment associated with the operation of dry grinding and dry polishing with machines, including the filtration control device, according to manufacturer's instructions. Subpart XXXXXX. [40 CFR 63.11516(c)(2)(ii)]

295 [40 CFR 63.11519(b)(1)] Submit Certification and Compliance Report: Due annually, by the 31st of January. Include the information specified in 40 CFR 63.11519(b)(4) through (b)(9), as applicable. Keep the report in a readily-accessible location for inspector review. Submit exceedance report with the certification and compliance report if an exceedance has occurred during the year. Subpart XXXXXX. [40 CFR 63.11519(b)(1)]

296 [40 CFR 63.11519(c)(15)] Keep records in a form suitable and readily available for expeditious review, according to 40 CFR 63.10(b)(1). Keep each record for 5 years following the date of each occurrence, measurement, corrective action, report, or record. Keep each record on-site for at least 2 years after the date of each occurrence, measurement, corrective action, report, or record according to 40 CFR 63.10(b)(1). The remaining 3 years may be kept off-site. Subpart XXXXXX. [40 CFR 63.11519(c)(15)]  
Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Keep records of the information specified in 40 CFR 63.11519(c)(1) through (c)(14), as applicable. Subpart XXXXXX. [40 CFR 63.11519(c)]

Equipment/operational data recordkeeping by electronic or hard copy at the regulation's specified frequency. Keep records of the information specified in 40 CFR 63.11519(c)(1) through (c)(14), as applicable. Subpart XXXXXX. [40 CFR 63.11519(c)]  
All affected facilities shall comply with all applicable provisions in 40 CFR 63 Subpart A as delineated in Table 4 of 40 CFR 63 Subpart XXXXXX.

#### ARE 0011 - Unpaved Roads

300 [LAC 33.III.1305]

Prevent particulate matter from becoming airborne by taking all reasonable precautions. These precautions shall include, but not be limited to, those specified in LAC 33.III.1305.A.1-7.

#### EQT 0004 - Dryers and Heaters

## SPECIFIC REQUIREMENTS

AI ID: 163497 - Minor Source Air General Permit for Surface Coating & Fabrication Facilities

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit  
Air - Minor Source/Small Source Mod

### EQT 0004 - Dryers and Heaters

- 301 [LAC 33:III.1101.B] Opacity <= 20 percent, except during the cleaning of a fire box or building of a new fire, soot blowing or lancing, charging of an incinerator, equipment changes, ash removal or rapping of precipitators, which may have an opacity in excess of 20 percent for not more than one six-minute period in any 60 consecutive minutes (Complies by using sweet natural gas as fuel).  
Which Months: All Year Statistical Basis: None specified  
Total suspended particulate <= 0.6 lb/MMBTU of heat input (Complies by using sweet natural gas as fuel).  
Which Months: All Year Statistical Basis: None specified

### EQT 0009 - Storage Vessels Storing VOC >1.5 psia, >250 gallons, and <10,000 gallons

- 303 [LAC 33:III.2103.A] Equip with a submerged fill pipe.

### EQT 0010 - Dust Filters

- 304 [LAC 33:III.501.C.6] Filter vents: Visible emissions recordkeeping by electronic or hard copy daily. Keep records of visible emission checks on site and available for inspection by the Office of Environmental Compliance, Surveillance Division.  
Particulate matter (10 microns or less) >= 99 % removal efficiency from filter manufacturer's certification.  
Which Months: All Year Statistical Basis: None specified  
Filter vents: Visible emissions monitored by visual inspection/determination daily. If visible emissions are observed, restore operation of the filter to its normal or usual manner of operation as expeditiously as practicable, but at a minimum within three working days, in accordance with good air pollution control practices for minimizing emissions.  
Which Months: All Year Statistical Basis: None specified

### EQT 0011 - Carbon Adsorption

- 307 [LAC 33:III.501.C.6] Control VOC emissions using activated carbon adsorption units (at 75% efficiency) that have been approved by the Environmental Technology Division, Engineering Services.  
Utilize a monitoring system approved by the Environmental Technology Division, Engineering Services.  
VOC, Total monitored by the regulation's specified method(s) daily. Monitor VOC breakthrough using a portable VOC detector until the reliable life expectancy of the canister is established.  
Which Months: All Year Statistical Basis: None specified  
Cease using equipment when breakthrough occurs and do not resume use until the carbon adsorption unit has been regenerated or replaced.  
Replace canisters as necessary to maintain a control efficiency of 95% minimum.  
Equipment/operational data recordkeeping by electronic or hard copy upon each occurrence of breakthrough. Keep records of the number of breakthroughs on site and available for inspection by the Office of Environmental Compliance, Surveillance Division.  
Equipment/operational data recordkeeping by electronic or hard copy daily. Keep records of the tests to determine carbon canister life, as well as the dates of canister replacement, on site and available for inspection by the Office of Environmental Compliance, Surveillance Division.

## SPECIFIC REQUIREMENTS

AI ID: 163497 - Minor Source Air General Permit for Surface Coating & Fabrication Facilities

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit  
Air - Minor Source/Small Source Mod

### EQT 0012 - Thermal Oxidizer

- 314 [LAC 33:III.1101.B] Opacity <= 20 percent, except during the cleaning of a fire box or building of a new fire, soot blowing or lancing, charging of an incinerator, equipment changes, ash removal or rapping of precipitators, which may have an opacity in excess of 20 percent for not more than one six-minute period in any 60 consecutive minutes (Complies by using sweet natural gas as fuel).  
Which Months: All Year Statistical Basis: None specified
- 315 [LAC 33:III.1311.C] Opacity <= 20 percent, except emissions may have an average opacity in excess of 20 percent for not more than one six-minute period in any 60 consecutive minutes (Complies by using sweet natural gas as fuel).  
Which Months: All Year Statistical Basis: Six-minute average

### UNF 0001 - Entire Facility

- 316 [LAC 33:III.1103] Emissions of smoke which pass onto or across a public road and create a traffic hazard by impairment of visibility as defined in LAC 33:III.111 or intensify an existing traffic hazard condition are prohibited.
- 317 [LAC 33:III.1109.B] Outdoor burning of waste material or other combustible material is prohibited.
- 318 [LAC 33:III.1303.B] Emissions of particulate matter which pass onto or across a public road and create a traffic hazard by impairment of visibility or intensify an existing traffic hazard condition are prohibited.
- 319 [LAC 33:III.2113.A] Maintain best practical housekeeping and maintenance practices at the highest possible standards to reduce the quantity of organic compounds emissions. Good housekeeping shall include, but not be limited to, the practices listed in LAC 33:III.2113.A.1-5.
- 320 [LAC 33:III.219] Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Louisiana Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.
- 321 [LAC 33:III.501.C.6] VOC, Total: Attainment parishes: VOC, Total < 90 tons/yr.
- 322 [LAC 33:III.501.C.6] Equipment/operational data recordkeeping by electronic or hard copy monthly: Permittee shall maintain records demonstrating compliance with Section III of this general permit for any consecutive twelve (12) months. Keep records on site for a minimum of two (2) years and available for review by DEQ personnel upon request. Noncompliance with an applicable limitation is a reportable violation of the permit. Notify the Office of Environmental Compliance, Enforcement Division if any emissions exceed the applicable maximum listed in Section III of this general permit for any twelve (12) consecutive months.
- 323 [LAC 33:III.501.C.6] Sulfur dioxide: SO<sub>2</sub> < 40 tons/yr.
- 324 [LAC 33:III.501.C.6] Nitrogen oxides: Attainment parishes: NO<sub>x</sub> < 90 tons/yr.
- 325 [LAC 33:III.501.C.6] VOC, Total: Nonattainment parishes: VOC, Total < 20 tons/yr.
- 326 [LAC 33:III.501.C.6] Any Individual Toxic Air Pollutant (TAP) emitted shall not exceed the lb/hr and tons/yr limits of Table 1. Facilities which emit a TAP not listed in Table 1 shall not exceed the minimum emission rate (MER) for that TAP listed in Table 51.1 and 51.2 of LAC 33:III.Chapter 51. No individual TAP shall exceed eight (8) tons per year.
- 327 [LAC 33:III.501.C.6] Nitrogen oxides: Nonattainment parishes: NO<sub>x</sub> < 20 tons/yr.
- 328 [LAC 33:III.501.C.6] Particulate matter (10 microns or less): PM10 < 15 tons/yr.
- 329 [LAC 33:III.501.C.6] Carbon monoxide: CO < 90 tons/yr.

## SPECIFIC REQUIREMENTS

AI ID: 163497 - Minor Source Air General Permit for Surface Coating & Fabrication Facilities

Activity Number: PER20120001

Permit Number: Surface Coating/Fabrication General Master Permit

Air - Minor Source/Small Source Mod

### UNF 001 - Entire Facility

330 [LAC 33:III.5611.A]

Submit standby plan for the reduction or elimination of emissions during an Air Pollution Alert, Air Pollution Warning, or Air Pollution

Emergency: Due within 30 days after requested by the administrative authority.

During an Air Pollution Alert, Air Pollution Warning or Air Pollution Emergency, make the standby plan available on the premises to any person authorized by the department to enforce these regulations.

331 [LAC 33:III.5611.B]
